

## **C A B I N E T M O U N T A I N S W A T E R D I S T R I C T**

At the August 14, 2018 Cabinet Mountains Water District board meeting, after many previous discussions with the district engineer, it was determined the Cabinet Mountains Water District is at full capacity to adequately service its current users.

Based on information presented, the Cabinet Mountains Water District Board voted to temporarily suspend accepting any further applications for water service.

Preliminary model analysis conducted by our engineer indicates that we are at system capacity. This parallels observations and measurements made by our maintenance personnel. In addition, peak usage during the last few summers has revealed areas that need improvement.

Cabinet Mountains has been working hard to find and implement affordable solutions. At this point, we feel it is important to take the time to plan improvements carefully so that we can adequately serve those already on the system.

Any questions or concerns regarding this decision can be addressed to the Cabinet Mountains Water District Board in writing at, P.O. Box 1223, Bonners Ferry, ID 83805. You may also elect to attend our next board meeting at 5 p.m. Tuesday, September 18, 2018 at the Bonners Ferry Visitor Center, 6373 Bonners Street, Bonners Ferry.
